Phoenix R250 Industrial Restoration Dehumidifier- Blue- 4035230 Air Mover Included

Model Number: 4035230

Phoenix R250 Industrial Restoration Dehumidifier- Blue- 4035230 Air Mover Included

Manufacturer: Therma-Stor

Phoenix R250 Industrial Restoration Dehumidifier 403500 FREE Air Mover

FREE Air Mover (of our choice of brand, color, model number) with Each Dehumidifier

The Phoenix R250 is a new breed of LGR dehumidifier. No larger than a typical “medium” class LGR, the R250 has engineered componentry capable of producing “extra-large” performance. The R250 delivers 135 pints per day (AHAM), while drawing only 8.3 amps, in a 20” x 20” footprint that weighs only 109 lbs. The proven LGR design is surrounded by a durable roto-molded high impact plastic to create a dehumidifier that is smaller and lighter than competitive units.
In addition to the performance benefits and compact size, the R250 has patented bypass technology for higher temperature operation, increased airflow to 325 CFM, multiple ducting options, R-410A refrigerant, and impressive air filtration with a pleated media MERV-11 filter. The R200 is the latest member of the Phoenix line of LGR dehumidifiers; the most effective and versatile drying devices made.

Patented
™
Features
• Removes 135 pints per day at AHAM
(80ºF/60% RH)

Patented bypass technology
Draws only 8.3 amps and removes 5.2 pints/kWh

Steambrite Supply

Phoenix R250 Industrial Restoration Dehumidifier- Blue- 4035230 Air Mover Included

Overall dimensions 20” x 20” x 33.5”
Weighs 109 lbs
325 CFM; faster drying and superior static pressure for ducting

Multiple ducting options -12” intake, 10” exhaust

Solid state controls
R-410A Refrigerant
Protected condensate hose
Telescoping handle
Recessed 12” Wheels
Pleated 12” x 12” x 1” MERV-11 media air filter
Stacks easily reducing storage space
Rugged roto-molded housing

Phoenix R250

Specifications

Part No. 403400 Power 8.3 amps, 120 VAC, Grounded Water 135 pints/day @ AHAM (80°F, 60%)

Removal 29 gal/day maximum @ saturation Blower 325 CFM without external ducting

300 CFM @ .15 IWG external static

Refrigerant 1 lb, 10 oz. R-410A

Charge Operating 33°F to 110°F Range

Filters: 12” x 12” x 1” Pleated Media MERV-11

Duct Intake – 12” Flex-Duct Options Outlet – 10” Lay-Flat

Warranty Five years; 1st year 100% of Parts and Labor 2nd-5th year 100% of sealed refrigeration system parts.

Phoenix R250 Industrial Restoration Dehumidifier- Blue- 4035230 Air Mover Included

Like every Phoenix, the R200 features effective air filtration with a pleated media MERV-11 filter. Multiple ducting options are available with 12” intake duct tabs on the lid and a wire duct collar for 10” lay-flat duct on the exhaust. The outlet grill is configured to accept a variety of thermo hygrometer probes (e.g. Vaisala, Humiport, etc.) for taking accurate psychrometric readings. The 25-foot power cord and 33-foot condensate hose store conveniently inside the hinged lid.

The R200 marks Phoenix Restoration Equipment’s second entry into the manufacturing of rotomold LGR dehumidifiers, proving our commitment to technology, performance and durability.

Convenient storage for power cord and drain hose.
