Model Number: 4038558

Phoenix 4038558, DryMAX XL LGR Replacement Filter Pack of 10, 55 pct. MERV-10 Filter, Pleated Media Filter, 12in x 14in x 1in

Manufacturer: Phoenix

Phoenix 4038558, DryMAX XL LGR Replacement Filter Pack of 10, 55 pct. MERV-10 Filter, Pleated Media Filter, 12in x 14in x 1in

Description

Pleated air filters capture airborne contaminants more effectively than non-pleated air filters because the pleated filter media provides more surface area for trapping contaminants. They also prevent the contaminants from building up in the equipment and causing damage to it. The filters are designed to be discarded when they are spent. They typically have a MERV (minimum efficiency reporting value) rating of between 7 and 13. A filter's MERV rating measures how efficiently it removes contaminants from the air stream based on the size of the particles it can effectively capture.

Features

- Pleated Air Filter, MERV 10, 55% efficiency up to 1.0 microns
- Replacement air filter for the DryMAX XL LGR Dehumidifiers

Specification

DryMAX XL LGR Replacement Filter
Pack of 10,
55 pct. MERV-10 Filter,
Pleated Media Filter,
12in x 14in x 1in
