Model Number: 1.100-244.0

Karcher 1.100-244.0, Puzzi 8/1 C Commercial Carpet Spot Compact Extractor, 20Lbs Hand Tool
120V GTIN 886622041870

Manufacturer: Karcher Pressure Washing

Karcher 1.100-244.0 Puzzi 8/1 C Commercial Carpet Spot Extractor 1.100-228.0
Compact 20 lbs with Hand Tool

The Puzzi 8/1 C spray-extraction unit can be used efficiently for upholstery cleaning or for spot cleaning on carpeted floors. Because of the very low residual moisture, cleaned carpets and upholstery dry faster and can be used again more quickly.

Features

Easy to use

Foot switch makes it easy to turn on and off – no bending required.

Transparent dome lid for easy-to-verify operation.

Quick disconnect soap coupling and a sturdy coupling ensure a fixed connection and easy change out of accessories.

Easy to transport

Swivel casters for easy maneuvering.

Lightweight – at only 19 lbs., it can be carried up and down stairs without strain.

Smart features

8' high-pressure solution and vacuum hose (98")

Crush-resistant suction hose with ultrasonically welded detergent tube for optimum suction.

Removable dirty water tank.

Clear hand tool

Questions and Answers:

Q. Does this machine heat the water or have a heater in it?

A. No, but it is recommended to fill with the building supplied hot tap water all the way up to 140 degree F.

Q. Is it OK to mix cleaners with the fresh water and pour into the fresh water tank?

A. Yes, but not all the time. Some cleaners and spotters contain ingredients and compounds that will shorten the life of the water pump seals and hand wand orings. If you place a cleaner in the fresh water, once you are finished for the day, suck out the remaining product out of the fresh tank and follow up by adding just fresh clean water and flush through the pump and wand. It is always recommended that you prespray the diluted cleaners on the surface first, agitate, and use this machine to rinse off with just fresh water. This will keep you from having to rinse out the cleaners from your pump and hand wand and will increase your chemical dwell time and improve cleaning results.

Q. Does the machine include a stand up carpet cleaning wand?

A. No, but the factory does offer this as an option. Item 4.130-394.0 as well as stair case carpet cleaning wand 4.130-128.0. Please talk to your SteamBrite rep for current prices and availability for these options.

Q. What is the maximum hose length I can use this machine?

A. 13 ft. No extension hose are available, rather only a replacement hose is required. You have to set aside the 8 foot included hose and replace with 13 foot item 6.391-411.0

Q. Can I order this unit in 220v-230Volt version to use internationally?

A. This unit is manufactured in international voltage but not stocked in the USA in that voltage. Furthermore we cannot special order this for you in an international voltage. The international version units order must be placed overseas with an international dealer and cannot be purchased inside the USA.
