Steambrite Turbo Heat Thermo Retention Hose 250 ft 3000 psi 250 degree Holds in More Heat 20191014 Nylon Braid 1/4 ID

Model Number: 20191014

Steambrite Turbo Heat Thermo Retention Hose 250 ft 3000 psi 250 degree Holds in More Heat 20191014 Nylon Braid 1/4 ID

Manufacturer: Steambrite MFG

Steambrite Turbo Heat Retention 250 ft Hose 3000 psi 250 degree Holds in More Heat 20191014 Nylon Braid 1/4 ID

Problem is normal wire braid carpet and tile cleaning hose can loose 20 degrees F of water temp every 100 ft.
This hose does not have a wire braid and is replaced with a nylon radial braid.
This offer a better internal heat Retention.
Test show the temperature loss is half as much as standard wire braid hose thereby increasing your water molecule vibration and cleaning performance.
Note for every 18 degrees you can have 100% more water molecule vibration and cleaning efficiency.
This hose with just a 10 degrees use rise can improve your cleaning by 50%!
Users can even save money by turning down their fuel fired, propane, diesel, and kerosene heaters and achieve the same cleaning performance with less heating fuel.
Heat exchanger truckmounts can improve their cleaning efficiency.
Kink free design.
Does not burn the customers lawn like traditional carpet cleaning hose.
Stainless Steel Crimps Eliminate Corrosion and rust!
Durable smooth cover slides over carpet and grass and outlast rubber.
High visibility.
1/4" Male Pipe on each end

Note the hose is stiffer when new but after a few uses, it does began to loosen up.

Steambrite Turbo Heat Thermo Retention. solution hose is similar to Parker Parflex but a way better value.
Rated 3,000 psi @ 250°F whereas Parker Parflex is rated 1275 PSI at 230°F.
Patented design more flexible and less memory than Parker.
So the quality is there.
In time, this new hose should prove more durable than Parker.
Like all of our solution hose – custom length up to 300 feet with your choice of crimps, steel or stainless.
Best of all is the price: Parker Parker is priced at $2.00 and up depending where you shop.
Quick Stats:

Steambrite Turbo Heat Thermo Retention Hose 250 ft 3000 psi 250 degree Holds in More Heat 20191014 Nylon Braid 1/4 ID

Non-marring bonded jacket with a seamless heat and chemical resistant inner tube
Kink Resistant
Ultra flexible construction
Polyurethane jacket up to 4 x more abrasion resistant than rubber
Temperature Rating: 250°F
Pressure Rating: 3,000 PSI
Lengths: 25′ – 300′
Color: Blue
Diameter: 1/4″
