Model Number: TM-54

Mytee TM-54, 54 Gallon Truckmount Water And Vacuum Holding Tank, TM54 For Carpet Cleaning Machines

Manufacturer: Mytee Products Inc

Mytee TM-54 Gallon Vacuum and Water Holding Tank

54 Gallon Holding Tank

Use with your truckmount to hold clean water or recovered solution.

Featuring a condensed footprint to help maximize valuable floor space, and high quality polyethylene construction for a long product life.

Tank is strong enough to also be used as an optional vacuum tank.

Includes factory provided heavy duty mounting feet.

Includes 1.5" threaded drain valve.

Can be custom plumbed to increase the size of your vacuum dirty water tank.

Simply connect both machine drains together before the drain valves and connect the top of the tank together with vacuum hose. This requires drilling, tapping and special tools.

Can be custom plumbed to hold fresh water (for either manual fill or auto fill extractors - transfer pump required for some installs, installing 1/16" vent hole on top of machine required.)

Can be custom plumbed to hold your dirty water for your auto pump out extractors.

Plastic design allows for easy user customization.

Please note the factory can fill orders in any color, their choice but white/natural is the current default.

Schematics

Capacity

54 gallons

Product Dimensions

21" x 37.5" x 41"

>
