Clean Storm 580294, 3/16" Flat Back-Up Rivet Washer, Aluminum, Stainless Steel, Each

Manufacturer: Clean Storm

Clean Storm 580294, 3/16" Flat Back-Up Rivet Washer, Aluminum, Stainless Steel, Each

Description

The Clean Storm 580294 3/16" Flat Back-Up Rivet Washer is engineered to provide essential structural support and load distribution when installing rivets in soft or thin materials. Designed to fit standard 3/16-inch rivets, this durable back-up washer prevents pulling through or cracking on applications involving fiberglass, plastic, rubber, sheet metal, and light-gauge metals.

Ideal for commercial cleaning equipment maintenance, pressure washer assembly, industrial repairs, and general shop hardware applications, this washer ensures a tight, secure clamp and extends the service life of your mechanical fasteners. Sold individually (EACH) for convenient order customization.

Features

- Enhanced Joint Strength: Spreads clamping pressure over a wider surface area to prevent rivet pull-through in softer materials.
- Durable Material Options: Available in high-strength Aluminum or Stainless Steel for corrosion resistance and reliable durability.
- Precision Fit: Sized specifically to accommodate standard 3/16" diameter blind rivets and fasteners.
- Versatile Application: Suitable for use across pressure washing systems, industrial cleaning equipment, auto body repairs, and general manufacturing.
- Sold Individually: Order the exact quantity needed for small maintenance tasks or large production runs.
