Clean Storm 26852201, Injection Needle for Carpet Cleaning, 1/8 Inch Pipe x 2 Inches Long

Manufacturer: Clean Storm

Clean Storm 26852201, Injection Needle for Carpet Cleaning, 1/8 Inch Pipe x 2 Inches Long

Description

The Clean Storm 26852201 Injection Needle is a professional-grade carpet cleaning accessory designed for precise liquid chemical injection directly into thick carpet fibers, padding, and upholstery. Featuring a standard 1/8-inch male pipe thread and a 2-inch overall needle length, this durable component allows technicians to target deep-set stains, odor sources, and spot treatments with maximum efficiency. Shipped with a safe, dull tip, it can be easily sharpened on a standard bench grinder to fit your specific cleaning preferences and job site demands.

Features

- Designed for heavy-duty chemical injection and targeted spot treatment in carpet and upholstery cleaning applications.
- Standard 1/8" NPT male pipe threading ensures broad compatibility with standard carpet cleaning wands, hand tools, and injection equipment.
- 2-inch needle shaft allows efficient penetration through backing and underlayment to deliver solutions right where needed.
- Ships with a dull safety tip that can be quickly touched up on a bench grinder for custom sharpness.
- Rugged industrial construction resists corrosion and holds up under high-frequency field use.
