Demo Husqvarna Pullman Ermator T4000 Hepa Concrete Vacuum 967759701A 240V Dust Collector ENO25 814228020081

Manufacturer: Husqvarna Equipment

Demo Husqvarna Pullman Ermator T4000 Hepa Dust Slurry Concrete Vacuum 967759701A 240V 3Phase 280CFM Dust Collector Used T 4000 A Rated 25% off Promo code E&O2023 Applied

240 volt 3 phase  
280 CFM

100 inch Vacuum System

The T4000 comes equipped with a 2.5" hose assembly (33 feet long), 2" hose assembly (25 feet long), 2" wand, 18" floor tool, conical pre-filter, (2) HEPA filters, 14" replacement rubber squeegee set and one Longopac bag sleeve for dust-free handling and disposal.

Demo / refurbished / blemished means: might have blemish, scratch, rust, or dent, used at a trade show, tested in the showroom by a customer, last years model, return by shipping company, returned by customer, used by factory for R&D work, no factory box. Limited stock so if you purchase it and we cannot fill the order because another customer beat you to the bargain, your money will be returned. Please do not call to see if it is still available as if the web page is up and viewable, it is available this second. If you delayed and asked if it available so you let some other customer place the order ahead of you.

All sales are final.

Same factory warranty as brand new: 1 years parts! Extended the warranty to 3 or even 5 years for a little more with no hour exclusions.

Condition of this machine: "A+" Only 1 at this price!

Our demo equipment usually has less than 100 hours on it.

Photos are not available as these ship from the factory as this unit has already been tested, cleaned, new filters, and crated.

Ships from TCFM warehouse.

Pre-Filter Cartridge is 40 Sq Ft of surface area

Hepa filter is 27 Sq ft of surface area.

198 lbs use weight.

T 4000 is a very powerful single-phase HEPA dust extractor to match the grinding machines Husqvarna PG 530 (1-phase), PG 450, PG 400 and PG 280 as well as small to mid size scarifiers, grinders, shot blasters and handheld power tools. This professional dust extractor is designed to meet strict demands. Three large, commercial-grade vacuum motors provide plenty of power. Equipped with three independently tested and certified HEPA H13 filters and a massive cone-shaped pre-filter with over 4.5 m<sup>2</sup> of media. This results in superior dust collection, even of fine sanding and gypsum dust. Features include Jet Pulse pre-filter cleaning, hour counter and vacuum meter for filter control. The non-marking wheels are puncture free and lock at the front. The Longopac® bag hose system ensures simple, dust-free bag changes

The original model had the 6-20P, then the L6-30P, now the CS8269 Plug  
The idea was to use one giant 50 amp 240 volt power supply through the SC8269  
and then you plug your L6-30 grinder into the outlet on the side of the vacuum.  
Like a daisy chain system.  
This webpage is for a 3 phase, 3 hot leg unit.

Single phase units have the option to change the plug and then plug directly into the wall

If you do not like that type of system, you can remove the factory plug and install the following UL approved plugs.

Same vacuum and design, just different final plugs.

We have had some customers cut the factory plug off to install this option  
Then they can use the optional power supply to plug in every where!  
NEMA 6-20P Plug 20 amp 240 volt replacement end For 10 and 12 Awg Wire  
8.709-656.0

Exact color or shade of the paint is subject to change without notice. Ships in red (967753601) or orange (967663803) or even black.

Optional

No need to operate on a gasoline generator for single phase units.  
It is much easier to find two power cords drawing 14 amps each and than a single 240 volt outlet.

Power Joiner Step Up Inverter Pressure Washer Converts Dual 20 amp 120 Volt outlets to 240 Volt 3 wire 15 amp L6-30R ReverseL6-30R

Plugs into every home, every business in the USA, Canada, and Mexico!
