Manufacturer: Husqvarna Equipment

Husqvarna 967855401 LG 400 AC Soil And Asphalt Compaction Machine Compactors

Honda

Description

LG 400 is a powerful, reliable reversible plate compactor, developed for efficient compaction of deep and medium-deep granular soil. It makes an effective alternative/complement to rollers when compacting in confined areas. It is equipped with a Honda GX390 petrol engine and features an ergonomic, service-friendly design.

Features

Plates made to last

The plates are made from the extremely durable and wear-resistant Hardox 400 steel.

The special design keeps rocks from getting stuck between the plate and frame.

Strong protection, easy transportation

The heavy-duty steel frame protects the engine and transmission. The frame is also equipped with a lifting eye for easy transportation.

Ergonomics and efficiency

The vibration damping handle allows you to work efficiently for hours.

Easy operation

The forward/reverse lever and fixed handle grip make handling easy on all surfaces.

You don't have to push/pull constantly during operation.
