Videos

This video illustrates the decrease in dry time achieved with the new SX-15. Two versions of the 15" Turbo tile tool were used as a comparison; one with the optional 1501 jets it is sold with, and one with the standard 0502 jets used on the SX-15. This was done to make a more accurate comparison between the two tools. The 0502 is a smaller angle jet than the 1501 which increases the pressure and cleaning power. The 0502 also puts down twice as much water which improves your rinsing capability.
