Ever had engine trouble caused by the wrong oil-fuel mix or oil type? Our unique OilGuard technology will help you avoid the damage from this. An optical detection system guards your machine, and reduces the revs per minute if something is wrong, saving you maintenance costs. Perfect for the rental industry.

Our best-selling all-purpose power cutter is lightweight, with every detail developed with ergonomics in mind. The outstanding power-to-weight ratio and exceptionally low vibrations (below 2.5 m /s²) mean you can work longer without having to worry about vibration monitoring.

Blade not included by factory, see below.
