Description
Upgrade and secure your heavy-duty electrical connections with the Clean Storm and Century Wire L6-30R Round Locking Power Cord Connector. Engineered for demanding industrial and commercial environments, this reliable 30-amp, 250-volt twist-lock connector provides a secure and stable power link for high-draw equipment such as Blastrac shot blasters. Featuring a robust nylon housing and premium internal components, it ensures maximum safety, reliable conductivity, and long-lasting durability on the job site.
Features

- Heavy-duty brass alloy blades for extended durability and superior electrical conductivity
- Color-coded terminal screws for easy, intuitive assembly and wiring
- Heavy-duty external cord grips to securely prevent the cable from pulling or disconnecting
- Durable nylon housing designed for superior chemical and impact resistance in rugged conditions

Specifications

Brand / Manufacturer
Clean Storm / Century Wire

NEMA Configuration
L6-30R (Locking Connector)

Amperage
30A

Voltage
250V
