San Antonio Misting Cooling Fan Rental Mist Storm 600 Cfm 1.2 Amp 120 Volts Pivoting Head 20200625 3 Day Rate

In order to reserve the misting fans you will have to prepay. We do not reserve dates without payment.

We are closed on UPS Holidays, which are defined as the same holiday schedule as UPS shipping.

MULTIPLE APPLICATIONS- Portable mister cooling solution that creates a comfortable outdoor environment. Stage on the patio, in an animal kennel, outdoor play area, outdoor wedding, sporting event, garden / greenhouse, outside restaurants / resorts, etc. Party event cooling.

COOL DOWN WITH EASY SETUP! - Simply plug in and connect to a standard garden hose to reduce ambient temperature up to 30 degrees. Cool down those hot summer days with a misty breeze.

2-IN-1 FUNCTION- Doubles as a powerful 138 Watts induction motor blower that produces 600 CFM of focused airflow. Use indoor without the mist for drying floors, paint, and even circulate air. 600 CFM (Cubic Feet Per Minute) is much quieter than other high velocity systems.

ADVANTAGE OVER OTHERS- This product is lightweight and draws a low 1.2 Amps of electricity. Built with ABS plastic (same as football helmets) to resists impact and abuse. Easily rent more on one and operate up to 10 units on a single curuit breaker.

FEATURES- 3 adjustable speeds, 7 ft. power cord with wrap-around cord design, carrying handle, GFCI power outlet, and nozzles with .3MM are included.

Water garden hose(s), and extension power cord(s) are not included in rental rate.

Mist Storm 600 Cfm misting fan is a super portable cooling solution that creates a comfortable outdoor environment during hot spring and summer days. Setup is quick and easy-simply plug in and connect to a standard garden hose to reduce ambient temperature up to 30 degrees. A high performance sealed motor generates up to 600 CFM. Four nozzles distribute a fine mist over a wide area that will cool down outdoor patios, pool areas, picnics, sporting events and other outdoor activities. Set up the misting fan in gardens and greenhouses to keep plants healthy in hard weather. Use the multipurpose air mover without the misting feature as a year-round drying and ventilation utility fan. The misting spray emitted by the nozzles should be even. This misting fan comes with the .3mm. We suggest cleaning the nozzles after each use before storing . Every so often, the problem is caused by calcification and mineral buildup from hard water. You can easily fix this problem by first disconnecting the power supply, removing the nozzles, and soaking them in vinegar. Then, rinse the nozzles with water and reconnect them.
