You can drive the brush with your 18 or 24 volt cordless drill or plug in drill as long as it has a clutch on it.

End of cable is round and is designed to fit in any 3/8 clutched drill. Do not use more than 360 degree of turns on the cable during use. If using a drill, you must a clutched drill and set the clutch to the lowest setting that still will keep the brush turning. Not more than If you are planning on using with your carpet cleaning machine, please be sure to purchase a Dust Downersystem too. This will spray water on the dry dirt as it travels down your vacuum hose and will turn the dirt into mud so you machine can properly deal with it. - 90 day factory warranty

Please note this unit takes 7 days to build. Please allow one week for delivery.

Please only use unit with no more than 360 degrees of turns.
Do not turn/use cable with the hose coiled up.
Must use a clutched drill set to the lowest setting that allows the brush to still turn.
If you use a standard drill and/or break the cable it will not be warrantied.
The only way you can brake the cable is to use this with a non clutched drill and/or leave coiled up and or turn it over 320 rpm.
The only way to brake this cable if by operator error.
Do not use faster than 320 rpm. (Usually you can place a zip / cable tie over the trigger to hold the speed - see video. Slide the cable tie off the trigger if you need to stop.)
If you break the cable you can remove the end and cut back the orange jacket and re-install the end.
