Model Number: 20200911

Clean Storm Horizontal Tank Float 1/2 Mip for up to 60 psi 20200911

Manufacturer: Clean Storm

Estimated rate of flow up to 1.5 gpm at 60 psi

PVC for corrosion resistance

Tank mount with extended threads on inlet side of valve for mounting through tank wall

1/2" NPT male threaded inlet and free-flow outlet

Note: MA052 has a 1/2 NPT pipe thread. This is extremely common in the plumbing world. The thread measures about 3/4 of an inch in diameter, this is a common mistake to those who are unfamiliar with pipe threads and plumbing
