The most advanced edge grinder for professional users
Switching to an HTC 270 EG means that the time spent on edge grinding can be seriously reduced for any contractor. We are confident to say that the HTC 270 EG is the world first true professional edge grinder.
The core focus in HTC’s product development has always been ergonomics, economy and ecology and HTC 270 EG is no exception. The machine is advanced, yet simple to use and many different options in configuration enables a more controlled and ergonomic edge grinding than ever before.
Some of the great features with HTC 270 EG are:

- Height of grinding head, only 100 mm!
- Access below shelves etc. when grinding
- Frequency control and “overload” light allows full control of grinding
- Ergonomically designed with many handle positions
- Easy to set grinding head towards both left and right grinding
- Grinding head adjustable in three angles
- Optimized center of gravity for best stability
- Floating cover that follows the floor at all times
- The EZchange system gives access to HTC’s complete tooling range
- Adjustable counter pressure wheels
- Detachable chassis for easy transportation

3 versions HTC 270EG to pick from but this one is the most popular for Speed (downward pressure,) Power, and ease to plug in to all job sites

This webpage is the the 967838701 version.
The optional 120 volt version is less weight and means it grinds much slower.
The optional 3 phase 460 volt version requires a special generator to operate
This model with the optional HTC power converter pack gives you the added weight and speed and power but still can easily be powered up. No generator required. 20 amp surge / 13 amp run. When starting the unit, apply downward pressure to lift head and lower the surge amp draw. Once turning, let up on the handle to start grinding with 79 lbs downward head pressure.

Optional Husqvarna HTC T5 Duratiq Power Supply Bundle No Generator Required [71101376] K31S20A L6-20R
Converts dual 120 volt outlets into usable 240 volts.
