Model Number: HAH2-10Blue

PMF Hide-A-Hose 1.5 in ID With Low Pressure Low Temperature rated hose 10 ft HAH2-10Blue

Manufacturer: Production Metal Forming

Simply the most innovative invention since the Steam Extraction Carpet Cleaner.

The Hide-A-Hose's simple principle of placing the solution line through the vacuum line with specially modified hose cuffs makes it the most
time savings convenient hose system in the industry. No more taping the solution line to the vacuum hose which insures that you keep flexibility and the
sticky tape does not drag dirt from job to job.

The Hide-A-Hose is taking over the carpet cleaning industry. The benefits using the Hide-A-Hose are numerous. No more joining the solution hose to the vacuum hose with tape or cable ties... or those vinyl ties that tend to catch on things going by. The ease of rolling one hose out at the job.

The Hide-A-Hose can be made in one continuous length or made so that it can break down into shorter lengths. Only the highest quality lined vacuum hose is used and solution hoses from I00psi to 3,000psi and temperatures from 70 degrees to 250 degrees available.

Options and Definitions:
Low Temperature means Hot tap water 120 degree or less (non heated machine use)
