J.E. Adams 8641 Cycle Counter - Non-resettable Replacement Parts

Manufacturer: J.E. Adams

J.E. Adams 8641 Cycle Counter - Non-resettable Replacement Parts

Description

Want to keep track of how many customers have used your equipment? JE Adams offers a non-resettable cycle counter that you can add to any model.

Features

- Cycle counters keep track of how many times a unit has been activated.
- Typically used when the counter is not visible from the outside of the machine
- Non-resettable cycle counter for use with all timers.
- This counter is for cycle counting only and is not a coin counter.

Specification

120VAC

Base mounted

V2-4816

Dimensions: 2.35" H x 1.63" W x 2.38" L
