"Great Great Product. I have a very large concrete driveway that would kill my back when using just the standard wand and take days to do. This product is one of the best overall products I have ever used! Easy to use and does the job of cleaning the concrete, which gets very bad every year. Driveway looks like new. I found it best to make the wheel stationary rather then swival for easier control. I also set the wheels to use the lowest, closest to the ground position. Almost fun to use!! This is one product I would ABSOLUTELY RECOMMEND!!!!" By JersyKid form North Carolina
