Description
Pumptec X-Series powerful high-flow pump ideal for area sprays, pest control, fire protection, and turf, lawn & agricultural applications!
Pumptec pump X-Series with solid ceramic 4 plunger type design is the most efficient way possible to pressurize water. This efficiency produces up to 20% more pressure or flow for a given power input compared to competitive pumps. The series offers a variety of pump and motor combinations customized to meet specific application requirements. Typical applications include pressure cleaning,Pest spraying and misting. All pumps are factory lubricated for long-lifePerformance. The only tool to completely disassemble the pump to its basic components is a 3/16" hex wrench. Durability and Performance results from exclusive use of premium materials. All metallic wetted parts are stainless steel. An aircraft-grade anodized aluminum pump with Teflon hard-coat body is nearly indestructible compared to pumps made of castings. The body offers chemical compatibility with a wide variety of chemicals. Epoxy and other coatings are available for high and low pH applications. Flow and pressure can be optimized to exactly match power input to nozzle size, and offers an assortment of eccentrics for low, medium and high pressure to match your application requirement.
Features

- • Performance Features
- Long Life
- High-Pressure
- High-Efficiency
- Serviceability
- Durability
- Application Flexibility
- Chemical Compatibility

Pumptec 10057, X-Series PTFE Carbon Seal Kit, GtIN 10679065072573

- Compact Design
- Enhanced Priming

Specifications
Body: Hardcoat Aluminum
Plunger: Ceramic
Valves: Stainless Steel
Inlet Port: (1) - 1/2" NPT (F)
Discharge Port: (1) - 1/2" NPT (F)
Max Fluid Temp.(°F): 140
Max Pressure (PSI): 75
Open Flow (GPM): 6.40
Seals: PTFE/FKM
O-rings: FKM
