Car Wash

Line
Vault & Form Assemblies

Model #
8685-6000A

Shipping Weight
50.00 lb.

There are two primary ways to store coins in a self-serve environment; either inside the equipment in a coin box or in a vault that is installed beneath the meter to collect coins. Since vaults are cemented in on all sides they are very difficult for thieves to break into. JE Adams provides the 2” threaded nipple and vault tube cover for most units. This form is designed to help you create a vault system for air machines
