Mytee 7303LX II Air Hog, Dual 6.6 in Vacuum 1200 psi, Hog Team Lightweight Tile and Carpet Bundle, 20211129

Great suction with auto fill and auto dump for non stop cleaning.
Lightweight vacuum and pump means not more needing to team lift or purchase a ramp to unload and load.
Great for apartment stair case work.
Cost less than all-in-one machines
Higher performance numbers
Clean both carpet and tile with adjustable pressures

Performance Units

Vacuum Units (Max CFM X Max Inches of Lift)	213 X 182" = 38,766
Clean Units / Speed (Max GPM X Max PSI)	2 X 1200 psi = 2400
BTU's Heat	zero
Total Performance Units	41,166

	50,000 building supplied hot water
	91,166

Hose mount means you install it between two sections of vacuum hose
Install on your last 50-65 ft next to your wand for an unlimited distance!
Provide an addition
Guaranteed lowest prices. Call (210-662-9000), email (info@steambrite.com), live chat, or use a contact us page. Our prices are so low that the factory has asked us to remove our discounted prices from our web site.
Mytee 3 stage carpet and upholstery cleaning vacuum booster hooks between two sections of 2" vacuum hose to add an extra 100 cfm to your cleaning. Great for really long hose runs. Install 50 to 25 ft from the end of the hose near you cleaning wand. Availible in a 2 stage model too.

Get half price shipping and pick up at SteamBrite San Antonio (shipping to our location)

7503 Vacuum Booster
Details:
Longer hose runs. Faster dry time.
Our new Vacuum Booster allows you to run longer hoses, reducing the need to move the base unit. It increases CFM where you need it most - near the carpet, allowing a more thorough extraction. Leave carpets dryer on every job.

- Now featuring Cool Cuffs
-

Specifications:

- Warranty: Limited life time warranty
- Vacuum: 3 St HP
- CFM: 125
- Caster: 2"
- Weight: 20 lbs.
- Flow through design - work with any extractor
- Convenient Drain Cap
- 11 amp @ 120 volts.

MY7303LX

Two 6.6 LX motors installed.
Here’s a Mytee® product that’s about to become an indispensable

Steambrite Supply

Mytee 7303LX II Air Hog, Dual 6.6 in Vacuum 1200 psi, Hog Team Lightweight Tile and Carpet Bundle, 20211129

part of your cleaning arsenal – the 7303LX Air Hog™ Vacuum Booster. But it’s actually much more than just a vacuum booster; use it as a stand-alone extractor.
Four Ways to Use your LX Air Hog™:

With this specially designed Air Hog™ model, you add up to 250 CFM (SteamBrite test 213 CFM @ 1000 ft above sea level) to your existing extractor for unmatched performance on long hose runs, giving you increased suction, leaving carpets dryer.
This versatile unit can also be used as a stand-alone extractor with your Mytee T-REX™ or carpet wand.
You can also “daisy chain” multiple Air Hog™ vacuum boosters to complete bigger jobs more efficiently, without unnecessary downtime.
Only one outlet available? No problem. Use only one power cord to run a single vacuum motor. You will still have powerful performance with 180 CFM and 113″ of water lift when running one vacuum motor.

Features:

7 gallon tank
Dual exclusive Mytee® Ametek Hybrid vacuum motors series mounted

Factory Installed
Mytee C348 Ametek Lamb Vacuum Motor Blower 6.6 Inches W/ 2in inlet tube CONE 120 volts Tangential 2 Stage 1 Speed
Amp draw is 9.5 occluded / 15.5 open flow = average 12.5 amps when you have lots of vacuum hose and wand on the floor.

Factory Installed
Ametek Lamb 122628-00 Lamb 6.6 Inch Vacuum Motor Blower 120 volts Tangential 2 Stage 1 Speed Mytee C347
Same amp draw as above motor.

Mytee 7303LX II Air Hog, Dual 6.6 in Vacuum 1200 psi, Hog Team Lightweight Tile and Carpet Bundle, 20211129

FAQ:
Can I use the Air Hog™ in conjunction with my truck mount?
Yes. However, in order to avoid damage to the unit it is critical that you first turn on the vacuum motors on the vacuum booster.
Then turn on the truck mount vacuum motors only after the vacuum booster vacuum motors are already running.

Note: Both Mytee and SteamBrite reserve the right to change the exact specifications, including but not limited to parts used in the build without notice and without obligation to retrofit any previously produced machines. Equipment is sold by part number only. Equipment design and parts used for the build are subject to change without notice.

Question: Does the Mytee 7303LX include the vacuum hose Lynx connections?
Answer: No, please purchase both H136V and the H110V connectors to use this machine.

Question: Are we supposed to use 1.5" ID or 2" ID vacuum hose with this machine?
Answer: 2" ID vacuum hose is recommended to join this booster to your current or existing machine as well as to travel on the way to your cleaning tool. Most cleaners that are using 1.5" vacuum hose might only do so the last 10 to 15 ft next to the cleaning tool/wand. Example: Main extractor < short 5 to 10 feet of 2" vacuum hose < Mytee 7303LX < 50 ft 2" ID vacuum hose < Reducer < 15 ft of 1.5" ID vacuum hose < Cleaning tool/wand.

Question: Can I use any of these power cords on the same breaker as my current carpet and tile cleaning machine?
Answer: No, this machine is too strong and use all the electricity for an electrical breaker. The reason it has more than one power cord, and your current machine has more than one power cord is each cord needs it own breaker.

Question: Please explain what is "Hose Mount?"
This topic is covered under the subject to cover the difference between hose mount, machine mount, exhaust mount vacuum boosters.
https://www.steam-bright.net/forum/parts-and-accessories/vacuum-motors/539-different-types-of-vacuum-boosters-used-in-carpet-cleaning

Question: What is the recommended maximum cleaning distance /vacuum hose length with this machine?
Answer: Unlimited when you use as a booster with another machine (truckmount or portable) and this 7303LX machine is 65 ft from your cleaning wand.
As a stand alone machine 150 ft with 2" ID hose, 75 ft with 1.5" ID hose, these numbers are cut in half when used with a rotary power wand.

Question: If I even want more power, more suction, what are some additional options?
Answer: I could mate this machine with another 7303LX and make my own Quad 6.6 system, OR I could mate with the Mytee Escape dual 6.6 system to make a quad 6.6 machine, OR I could made with the Mytee 1005LX to make a quad 6.6 system, OR I could just purchase a Quad 6.6 machine. Example Goliath Quad 6.6. This is available in both with wheels or trailer/truck mount.

Question: Since this is version 2 what was version 1?
Answer: Version one has a single 6.6 vacuum installed. They doubled the vacuum power with version 2 but the price jumped up another $600 too. Version one is on the discontinued list. If you want a single 6.6 vacuum motor for a hose mount vacuum booster, we will make one for you.

Question: Are the Mytee "hybrid" vacuum motors really stronger than traditional 6.6 vacuum motors?
https://www.steam-bright.net/forum/parts-and-accessories/vacuum-motors/21132-mytee-hybrid-vacuum-motors-really-stronger-than-traditional-6-6-vacuum-motors
