Clean Storm 622250, Blue Clear Nylon-Insulated Female Flag Solderless Crimp Terminal, 0.25in or 1/4in Wide, Pumptec 30754

Model Number: 622250

Clean Storm 622250, Blue Clear Nylon-Insulated Female Flag Solderless Crimp Terminal, 0.25in or 1/4in Wide, Pumptec 30754

Manufacturer: Clean Storm

Clean Storm 622250, Blue Clear Nylon-Insulated Female Flag Solderless Crimp Terminal, 0.25in or 1/4in Wide, Pumptec 30754

Description

Clear nylon-insulated push-on flag terminals are high-performance female and male blade-type connectors designed to create secure, reliable wired connections. The premium nylon insulation enveloping the flag terminal offers superior flexibility and pliability during crimping while providing enhanced heat resistance compared to standard insulation materials. Featuring transparent insulation, these flag terminals allow for quick visual inspection of the wire connection to ensure optimal contact. Ideal for automotive, marine, industrial, and diverse electrical applications.

Features

• Molded Nylon Insulation: Durable nylon material is molded over a brazed seam barrel, offering exceptional resistance to deformation.
• Funnel Entry Design: Smooth funnel entry inside the insulation allows for effortless wire insertion and positioning.
• Brazed Seam Construction: High-strength brazed seam prevents separating under heavy crimping pressure or severe operating stress.
• Transparent Shell: Clear nylon insulation enables fast and easy visual inspection of the internal wire connection.
• Color-Coded Standardization: Industry-standard blue color-coding clearly indicates the compatible wire gauge range.
• High Voltage & Temperature Ratings: Rated up to 600V maximum for building wire (1000V maximum for sign/fixtures) at operating temperatures up to 105°C (221°F).

Specifications

Brand / Part Number	Clean Storm 622250

Clean Storm 622250, Blue Clear Nylon-Insulated Female Flag Solderless Crimp Terminal, 0.25in or 1/4in Wide, Pumptec 30754

Terminal Type
Female Flag Solderless Crimp Terminal

Angle
90 Degree

Tab Size / Width
0.25" (1/4" / 6.35 mm)

Insulation Material
Clear Nylon (Fully Insulated)

Color Code
Blue

Barrel Type
Brazed Seam

Maximum Voltage Rating
600V (Building Wire) / 1000V (Signs & Fixtures)

Maximum Temperature Rating
105°C (221°F)

Applications
Automotive, Marine, Commercial, Industrial Electrical Systems

Cross Reference SKUs
