- 43 lbs weight
- PSI: 3000-4000
- GPM: 4-6
- Deck Size: 24″
- 1 Caster, 2 Airless Rear Tires & Hoop Handle

The Hydro Twisters are made for daily heavy duty use and come with brush guards to reduce splash on building windows and the operator.
Hydro Twisters have low profile decks which allow them to fit under benches & machinery.
Have less fatigue through the ideal mounted handle. Furthermore enjoy the benefit of a rustproof surface cleaner, stainless steel deck & handle.
Hydro Twisters are heavy duty units for extra stubborn grease or grime, eliminating the need for sop pretreatment in most applications.
Hydro Twisters are industrial-grade flat-surface cleaners that connect to a pressure washer and use a spray bar which is rotating at a high peed just above the ground to clean concrete more consistently and faster and less fatigue than an operator with a wand.
A surface cleaner uses much less water than a hose wash down, too. Hydro Twister surface cleaners can be used with cold water or up to 250 degrees Fahrenheit hot water (check your model how much they can handle!).
Their proprietary aluminum spray arm with compound angled nozzles not only cleans up to the edge but also pushes water aside to create more impact on the surface they clean for better results.
The Trident Hydro Twister cleans more square footage than others in their class.
The all stainless, rustproof deck & handle construction will keep your surface cleaner work and look great for years.
A front non-marking caster paired with two large, airless tires reduce fatigue when working in straight lines. Dial up or down the pressure as needed from the hoop handle which folds down for carrying or storage.
Hydro Twisters are ideal for:

Steambrite Supply
