Clean Storm 20220137, 1500 PSI 3 GPM Cold Pressure Washing Cart, Steel Frame, 230V 3-Phase 10A Electric Industrial Washer

Model Number: 20220137

Clean Storm 20220137, 1500 PSI 3 GPM Cold Pressure Washing Cart, Steel Frame, 230V 3-Phase 10A Electric Industrial Washer

Manufacturer: Clean Storm

Clean Storm 20220137, 1500 PSI 3 GPM Cold Pressure Washing Cart, Steel Frame, 230V 3-Phase 10A Electric Industrial Washer
Description
The Clean Storm 20220137 is a high-performance 1500 PSI, 3 GPM cold water electric pressure washing cart engineered for heavy-duty industrial and commercial cleaning applications. Featuring a robust 3 HP motor, industrial triplex plunger pump with ceramic plungers, and a durable steel tube frame with 10-inch tires, this unit delivers exceptional reliability, portability, and cleaning efficiency for professional contractors.
Features

- Heavy-duty tube steel frame protected by an industrial powder-coated finish for maximum corrosion resistance and durability.
- Equipped with two large 10-inch pneumatic tires for superior job-site portability across rough terrain.
- Totally enclosed, fan-cooled (TEFC) industrial motor featuring built-in thermal overload protection.
- Industrial triplex plunger pump equipped with durable ceramic plungers and stainless steel valves.
- Integrated unloader valve protects the system from over-pressurization and thermal buildup.
- Low-pressure chemical injection system for effortless application of concentrated liquid detergents.
- Includes a 50-foot by 3/8-inch high-pressure hose and a 35-foot power cord with a GFCI NEMA 6-20 plug.

Applications

- Commercial building exterior cleaning and facade washing.
- Fleet vehicle, truck, and heavy equipment maintenance and washing.
- Industrial warehouse floor scrubbing and maintenance.
- Property management and facility sanitation.
- Automotive repair shop and dealership service bay cleaning.

Clean Storm 20220137, 1500 PSI 3 GPM Cold Pressure Washing Cart, Steel Frame, 230V 3-Phase 10A Electric Industrial Washer

Brand
Clean Storm

Model / Part Number
20220137

Water Type
Cold Water

Power Source
Electric Motor

Mounting Type
Cart / Wheeled Frame

Operating Pressure
1500 PSI / 103.5 Bar

Flow Rate
3 GPM / 11.4 LPM

Horsepower
3 HP

Voltage / Phase / Amperage
230-240 Volt / 3 Phase / 10 Amp Run

Pump Thermal Protection
Mechanical 140° F with 1/4" barbed connection

Tips and Additional Information
Ensure proper electrical supply matching the 230V 3-phase 10A requirement before installation. Verify that the water supply meets the minimum flow requirements and does not exceed 140° F. Utilize the 1/4-inch barbed connection for indoor thermal relief venting when operating in enclosed spaces. Regularly inspect hoses, quick-connect fittings, and the GFCI plug prior to each use to maintain safe and

optimal operation.
Frequently Asked Questions
Q: What is the electrical requirement for this pressure washer?
A: This unit operates on 230-240 Volt, 3-phase power with a 10-amp run requirement, equipped with a GFCI NEMA 6-20 plug.
Q: Can this unit draw hot water?
A: The maximum pump inlet water temperature is 140° F, making it suitable for warm or cold supply water sources, though it is primarily designed as a cold water machine.
Q: How do I apply detergents with this system?
A: The pressure washer features built-in low-pressure chemical injection that is activated using the hi-low pressure adjustable nozzle on the trigger gun.
Warranty & Safety Information
Backed by manufacturer warranty coverage against defects in materials and workmanship. Warranty is voided if the unit is operated above its maximum pressure (1500 PSI) or temperature (140° F) ratings, if electrical supply specifications are improperly matched, or if damage results from lack of maintenance, freezing, or failure to use proper thermal protection venting.
