Reels are durable and compact for a wide range of applications with critical space requirements. A full flow shaft and swivel assure maximum product delivery.

Features

- Reinforced steel – The robotically welded steel base offers maximum strength and consistent quality. All steel components are powder coated for maximum corrosion resistance.
- Full flow stress-free swivel design – The full flow swivel combines the highest grade seal design and materials with bearing areas to ensure maximum service life. The hose is plumbed into the base to eliminate the risk of undue stress on the swivel.
- Quiet speed latch – The latch cam is designed for reliable quiet operation.
- Guide arm adjusts to two positions
- Inlet hose is plumbed into the base to eliminate the risk of stress on the swivel
