Clean Storm 20220211 Electric Cold Pressure Washer 1450 Psi 2 Gpm in RotoMolded Housing

The Molded cart cold water pressure washers use a rotationally modeled heavy wall polyethylene that forms the chassis of the cart. This design offers great protection of the electric motor and pump from the elements. Two model styles offer a location for a one gallon chemical bottle or the deluxe models offer 6 gallon of chemical storage in the molded frame of the cart. Features include an industrial motor that is totally enclosed and thermal overload protected, industrial triplex plunger pump with ceramic plungers and stainless steel valves is protected by unloader valve. Equipped with low pressure chemical injection for application of concentrate liquid detergents and is activated by sliding the multi-reg variable pattern nozzle into the low pressure position.
