Karcher FRV 30 Pressure Washer Surface Cleaner with Vacuum Recovery Dirty Water Discharge 2.111-010.0

Manufacturer: Karcher Pressure Washing

Karcher FRV 30 Pressure Washer Surface Cleaner with Vacuum Recovery Dirty Water Discharge 2.111-010.0

With the integrated, automatic suction of the dirty water, the FRV 30 makes surface cleaning even more efficient and can be used in both inside and outside areas. There is no longer a need to rinse the surface after cleaning, since the dirty water can be discharged through the 5 m suction hose supplied. Additional quality features are the non-marking steering rollers and double ceramic bearing. Machine-specific nozzle kit must be ordered separately. Max. 250 bar / 1000 l/h / 60°C.

The FRV 30 is a patented 12" (300mm) hard surface cleaner that provides an industry first: simultaneous cleaning and waste water suction without the need for a vacuum! Utilizing Karcher's patented Power Nozzles the FRV 30 cleans up to 10 times faster than using a pressure washer alone and features a heavy-duty ceramic bearing for superior life.

Optional Nozzle kit 2.642-431.0 is rated for 4 GPM (2 @ 1 GPM + 1 that discharges water at 2 GPM)

Karcher FRV 30 3 pack Nozzles for Vacuum Recovery Surface Spinner
