Manufacturer: Husqvarna Construction Products

Husqvarna T 4000 Petrol Dust and Slurry Hepa Vacuum With Pre-Separator Gasoline
523 lbs 285 CFM 967973301

Husqvarna T 4000 Petrol Soff-Cut is an advanced petrol dust extractor developed to manage large amounts of dust. The intuitive controls make the dust extractor easy to start and operate. It is equipped with the Jet Pulse Filter cleaning system, which purges the filter with negative air pressure to effortlessly and safely clean the filter. The machine is designed to stay durable even in tough conditions thanks to its corrosion-resistant steel components. The T 4000 Petrol Soff-Cut is specialized for Soff-Cut® applications with an integrated pre-separator which captures up to 90% of the dust before it reaches the pre-filter. The larger wheels on the Soff-Cut version are designed to handle the weight of the machine without creating marks on green concrete
