Video

DC 6000 is an effective industrial dust collector to match the highly productive Dual Drive Technology® grinding machines Husqvarna PG 820, PG 680 and PG 530 3-phase. DC 6000 is developed with unique double shell cyclone technology and automatic filter cleaning. The cyclone technology enables constant high air flow and high productivity, leaving less dust on floor and thereby saves the user time with cleaning. Possibility to lower the machine makes it easy transport. Can be used for both wet and dry applications.
