Husqvarna 967964602, BLi950X 36 Volt Battery Backpack, GTIN 805544042512

Model Number: 967964602

Husqvarna 967964602, BLi950X 36 Volt Battery Backpack, GTIN 805544042512

Manufacturer: Husqvarna Equipment

Husqvarna 967964602 BLi950X Battery Backpack
Heavy duty design meets maximum runtime. Truly durable, high capacity (31.1 Ah) backpack battery for highest productivity and longest runtime. Robust design guaranteed for daily outdoor work in all weathers. LED charge indicators on battery pack, plus exact battery charge percentage readable from adapter simplifies work planning for the user. Advanced ergonomic harness allows a perfect fit, and the easily detachable battery pack means users can share batteries freely without swapping harnesses. Detachable support foot for free-standing use ensures all day comfort and productivity, and reduces the risk of the harness getting wet and dirty.

Article number : BLi950X
BATTERY 36V, 31.1Ah, backpack battery, US/CA - 967 96 46-02
GTIN 805544042512

- Perfect fit
- Checking the battery level
- Personal storage space
- Great mobility

Question and Answers:
Q. I ordered a 40 volt battery and a 36 volt showed up?
A. Husqvarna markets this part number both ways. The chargers used for this battery supply the battery with 40 volts DC. These batteries use used to supply devices it is installed in 36 volts DC. This is the same as your car battery works. Car batteries are 12 volts DC but the next time you turn on your car look and read the dashboard and accelerate down the street. As your RPM increase the voltage will increase past 12V. You will see the voltmeter is supplying the car with 14 volts! We live on Earth, and the laws of physics are supply resistance in electrical devices. This means if you only put 36 volts into the battery it would not supply you with 36 volts back out. What I am trying to tell you is man made this product and not God. You received the correct product and this battery is designed to be charged on a 40 volt charging station. Tip: This is a Lithium-ion battery which means it is best if you do

Husqvarna 967964602, BLi950X 36 Volt Battery Backpack, GTIN 805544042512

not allow it to freeze. Do not store outside in your service truck if the temp falls below 32 degrees F.
