Print Manual:

Shark's BR series is an extra-rugged pressure washer with cleaning power of up to 5000 PSI

These Shark Series roll cage models are the most powerful units in our cold water line, with cleaning power of up to 5000 PSI. Protected by a rugged powder coated roll cage built of 1 1/4" steel pipe, the BR Cage units feature powerful Vanguard, Honda or Kohler engines, tri-plunger oil bath Körcher pumps, 13-inch tubed pneumatic tires, and an extra rugged belt-drive assembly with notched V-belts and cast iron pulleys. All single- and double-axle models are ETL safety certified.

BR-373537 can be paired with Shark's TRS-2500 trailer to create a mobile on-site cleaning solution

PRODUCT OVERVIEW

- Rugged steel chassis & roll cage
- Multiple engine alternatives
- Cleaning power up to 5000 PSI
- Electric start on dual-axle models
- Industrial belt-drive crankcase pump
- 13" tubed pneumatic tires
- BR-373537 is compatible with Shark's TRS-2500 trailer

Shipping

All pressure washers are shipped FREE to anywhere in the lower 48 states. To commercial address. A \$75 fee applies to residential address.

However, the accessories often ship separately from different manufacturers in different locations.

We only charge shipping on the accessories – not the pressure washers.

We ship to Alaska, Hawaii and Canada. Standard shipping rates will be charged to these destinations.

Changes to the delivery address requested after the product ships will incur a \$50 reconsignment fee.

Lift-Gate Service

Have Your Pressure Washer Unloaded Safely

>

Pressure Washers Direct gives you the option to order "Lift Gate Service" on all pressure washers that weigh more than 100 lbs.

The fee for this optional service is \$50.

Due to the weight of these pressure washers, they cannot be shipped via UPS Ground.

Instead, they are shipped via semi-trucks, which are designed to unload products at loading docks and freight terminals.

If you have a loading dock or forklift, you do NOT need liftgate service.

If you are a residential customer, you must have AT LEAST 2-4 able-bodied people present to unload the pressure washer.

While some truck drivers are kind enough to help, they are not required to help you lift the products.

If you do not have the equipment or manpower, you can order a special truck equipped with a hydraulic lift to safely lower the product from the truck to the ground.
