Description
Husqvarna introduces the first petrol/gas driven floor grinder in the PG range. PG 400 Petrol is a versatile and very productive single disc floor grinder for a wide range of outdoor applications. With its 400 mm wide grinding width it efficiently grinds lippage in concrete slabs, trip hazards, removal of paint, epoxy and spackle on medium to large concrete areas. This compact machine is designed to facilitate an ergonomic work position and is easy and convenient to use and transport.
Combine the PG 400 Petrol floor grinder with the dust extractor Tâ€¯4000 Petrol and you have a perfect match for outdoor floor prep applications. No need for power cables ensures even better mobility on the job site and more time to work with the project at hand.
Features

- The machine has a user-friendly control panel with an easy-to-use throttle control.
- The extra (OPC) handle ensures that the operator has his or her hands safely on the handle of the grinder when operating the machine.
- A robust steel bumper protects the front of the gearbox and engine.
- Possibility to log operating hours and read the RPM of the machine.
- Self-adjusting floating cover with brush list follows the surface and gives a tight seal to prevent the dust from entering the working environment.
- EZchange™ is an instant and hassle-free system for changing diamond tooling.
