The T-REX™ Jr. is the Ultimate in Total Rotary Extraction.
Say goodbye to traditional wand carpet cleaning and hello to the industries newest Total Rotary Extraction tool — the T-REX™ Jr.
The T-REX™ Jr. offers:

• 12″ Cleaning path
• Adjustable 80 – 180 RPM
• 4 vacuum slots
• High solution flow; 4 jets.
• Powerful electric motor
• Ambidextrous safety switch – prevents damage to near by objects
• Elevated, easy handle adjustment
• Clear swivel tube
• 2″ Cuff-Lynx™ hose connection with retainer (retainer keeps vacuum hose from getting in the way)
• Pigtail with detachable 25′ lighted power cord
• Swivel QD
• Permanently lubricated transmission
• Front handle for easy pick up
• Lightweight
• Wrench is provided for easy hub removal
With the TREX – Total Rotary Extraction Tool – carpet cleaning has never been easier!

Lighted Power Cords
Lighted power cords indicator plug glows when the cord has power.

Cuff-Lynx™ Ready
Cuff-Lynx™ provide an easy connection for vacuum hoses.

NOTE: Rotary power wands work best with auto fill and auto drain portable machines and truckmounts because they use twice as much water per minute and you do not want to waste time filling and emptying your machine. When used with a portable, it is best if used with one that offers more vacuum than the average machine. This would allow you to run longer hose runs without moving the machine very often.

.
Question: What is the maximum hose length I could run with this package?
Answer: 115 ft if you upgrade to 2" ID vacuum hose with a 1.5" X 15 ft vacuum hose leader.

Question: How hot will the water get?
Answer: This depends on the flow rate as well as the temperature that you place in

Mytee 1001DX-200 Plus TRex Jr 12 inch Rotary Power Wand Air Mover 50 ft Hose Set Injection PreSprayer Bundle 20220630

the machine to begin with. Example if I place hot tap water, say 120 degrees F in the fresh water tank, then this water sits in the tank for a while before it leaves to go clean the carpet, it is already 110 degrees. Now the in line heater is trying to make it 200 degrees but the water passes through the heater so fast it will only rise about 20 degree with a normal 2 jet wand with a 2/3 rinse stroke, 1/3 dry stroke. But if laying on the trigger with a rotary power wand like a Trex, that uses 4 time the water flow of a 2 jet wand, I expect a 5 degree rise.

Question: What is this package advantage over other packages and what is its disadvantage over other packages?
Answer; No matter what bundle you look their is always starter bundle that can clean faster, with more hose but this will take more power or outlets. The advantage to this bundle is the price. Very in expensive. The disadvantage is it is not a pressure feed portable, rather this is suction feed (means 10 degree loss in temperature,) it is not auto fill and auto dump, the maximum hose length and diameter of the wand head is limited. For the money, one of the best bundles on the market, but for speed, not so much. Manually filling and draining and moving the machine around the job site will get old fast. This is a 20 amp vacuum but if you move up to a 30 or even a 50 amp vacuum, you can run hundreds of feet of hose with a 15" wand with auto fill and dump. You could add live steam too by burning a fuel like propane and diesel and out clean any truckmount for half the price of a truckmount.

Options available for Mytee 1001DX-200 Plus TRex Jr 12 inch Rotary Power Wand Air Mover 50 ft Hose Set Injection PreSprayer Bundle 20220630 :
