Clean Storm 20220708, 120 Volt GFCI Replacement Head 5-15P, Horizontal Pin

Model Number: 20220708

Clean Storm 20220708, 120 Volt GFCI Replacement Head 5-15P, Horizontal Pin

Manufacturer: Clean Storm

Clean Storm 20220708, 120 Volt GFCI Replacement Head 5-15P, Horizontal Pin
Description
Upgrade or repair your heavy-duty cleaning equipment with the Clean Storm 120V GFCI Replacement Head (Model 20220708). Engineered for safety and reliability on the job site, this 15-amp ground fault circuit interrupter plug features a standard 5-15P configuration with a distinct horizontal pin design. It provides essential protection against electrical shock in wet or demanding commercial extraction and restoration environments.
Features

- Built-In GFCI Protection: Enhances operator safety by instantly cutting off power in the event of a ground fault.
- Standard 15-Amp / 120-Volt Rating: Perfectly compatible with standard commercial and residential power outlets.
- Unique Pin Design: Features a 5-15P configuration with one horizontal pin for secure, specific equipment matching.
- Durable Construction: Built to withstand the rigorous daily demands of carpet cleaning, flood restoration, and industrial use.
- Easy Replacement: Ideal for swapping out damaged, worn, or non-compliant equipment power cords.
