Model Number: 71-502

Stainout 71-502, 5qt Rotomold Injection Sprayer, with Rear Fill Port, Freight Included, GTIN 865183000151

Manufacturer: StainOut Systems

Featuring wide T jets backed with strainer check valves, and ergonomically designed bottles, the Little Penguin inline injection sprayers are both comfortable and reliable! The wide base 5 qt. Little Penguin is designed to be super stable, preventing any tips or spills.

Pre-treating carpet, upholstery, tile and other surfaces can mean the difference between good results and truly great ones. Let your work shine by using 5-quart, 9500 Injection Sprayer to pre-treat jobs for maximum results. The 9500 Injection Sprayer is:

- User-friendly – Features a hose that connects to the front of the gun and doesn't get in your way, automatically mixes water to solution 8-to-1 (at 400 PSI), offers a mesh filter to keep dirt and other debris out of the spray hose, and includes a quick-disconnect valve that allows you to remove the solution hose promptly.

- Versatile – Attaches to all injector bottles using an easy-to-fasten Velcro attachment. Can be used with any extractor (at 190 PSI or lower), regardless of its size or power, to pre-treat any surface. Includes the 5-quart Big Mouth® Injection Bottle, which is:

- User-friendly – Graduated and translucent for precise measuring, easy to clean, and includes an easy-fill port with a cap that is tethered to keep it from getting lost.

- Durable – Made of tough, roto-molded polyethylene plastic, which is resistant to cracks, dents and leaks.

- Covered by Stainout 1 year warranty and national network of service centers. Get maximum results with each job.

5 QT. INJECTOR SPRAYER

Parts interchangeable with HydroForce
