C1300 Features:

Captures 90% of material before it reaches the dust collector
Increased efficiency in the separation of dust from the air stream
Improved filter performance and significant reduction in the frequency of filter maintenance
Extends concrete grinding operation longer without interruption
8.72 gal. pre-separator with built in vacuum equalizer for use with a plastic bag.
Includes an 8 ft, 2" hose assembly
Weight: 31 lbs. / shipping 44 lbs + pallet

Collection: 11 gallon plastic bag
Dimensions: 16”W x 19”D x 33”H / shipping box 20" X 20" X 38"H Plus pallet

Designed for Dust Extractor models S13 and S26 or any machine that uses 2" ID vacuum hose.

Designed for 2" ID vacuum hose

When dealing with vast amounts of dust, using a pre-separator will capture 90% of the material before it even reaches your dust extractor, preventing premature clogging. Thus, a pre-separator contributes to higher airflow, faster pick-up and extended motor life. You can have confidence in the level of filtration since the pre-separators are equipped with some of the same primary filters used in our dust extractors.
Pullman Ermator Pre-Separators
Designed to MAXIMIZE Efficiency, Minimize Cost
Each Pullman Ermator Pre-Separator works between the floor grinder (or shot blaster, scarifier, saw, milling machine, etc) and the vacuum to catch up to 90% of the dust and debris.

# Husqvarna 200600756A, Pullman Ermator C1300 Pre-Separator, 967747801 GTIN 814228020180

Makes You MONEY!
* Vacuum Filters stay clean, reducing the need to clean or replace.
* Enables you to keep the grinder running all the time, instead of stopping to empty the vacuum and clean the filters (simply turn off the vacuum for a few seconds, let the dust drop into the pre-separator bag, then turn the vacuum back on and get back to work!)
* Saves time spent cleaning filters
* Saves money spent replacing filters
* Keeps your grinder working full time
Exact color or shade of unit is not guaranteed.
Use Optional lift out plastic bag liners to left out dry dirt.
