Model Number: 119656-00

Ametek Lamb 119656-00, Vacuum motor, 240 volt 2 stage, Peripheral Discharge 5.7 Diameter

Manufacturer: Ametek-Lamb

Ametek Lamb 119656-00 Vacuum Motor - 240 Volt, 2 Stage, Peripheral Discharge, 5.7 Inch Diameter

The Ametek Lamb 119656-00 is a 240 volt, 2-stage vacuum motor with a peripheral discharge design and 5.7 inch motor diameter. This motor is commonly used as a replacement vacuum motor in select professional dust collectors and extraction equipment.

Common Applications

- Husqvarna S26 dust collector
- Husqvarna F26 dust collector
- Husqvarna F36 dust collector
- Forte F36-220v dust collector
- Husqvarna G22 dust collector
- Other 240 volt equipment using a 5.7 inch, 2-stage peripheral discharge vacuum motor

Key Features

- Genuine Ametek Lamb vacuum motor part number 119656-00
- 240 volt electrical rating
- 2-stage vacuum motor construction
- Peripheral discharge airflow design
- 5.7 inch diameter motor body
- Designed for professional dust collection, extraction, and vacuum recovery systems

Specifications

Brand
Ametek Lamb

Part Number
119656-00

Voltage
240 Volt

Motor Type
Vacuum Motor

>

Stages
2 Stage

Discharge Style
Peripheral Discharge

Diameter
5.7 Inch

Important Ordering Notes

- Please verify your original motor part number before ordering.
- Confirm your machine uses a 240 volt motor.
- Confirm the discharge style is peripheral discharge, not tangential or thru-flow.
- Display photos are for reference only. Orders are fulfilled by the part number ordered.

Replacement Tip

When replacing a vacuum motor, inspect the gasket, carbon brush condition, wiring terminals, cooling path, and filter condition. A restricted filter, blocked hose, or leaking gasket can reduce performance and shorten motor life.

FAQ

Question: Is this a 120 volt motor?

No. This listing is for the 240 volt Ametek Lamb 119656-00 vacuum motor.

Question: What size is this motor?

This motor has a 5.7 inch diameter.

Question: What does peripheral discharge mean?

Peripheral discharge means the exhaust air exits around the outside edge of the motor housing rather than through a single tangential outlet.

Question: Will this fit my Husqvarna dust collector?

This motor is listed as fitting Husqvarna S26, F26, S36, F36-220v, and G22 dust collectors. Always confirm the original motor number before ordering.
