Additional Info
Note this Heated pump with a 7 flow Bonzer wand will rinse carpet at about 250-375 psi. @ 1.75 GPM
The default included pressure washing nozzle of 3.5 flow yields 1000-1200 psi @ 1.75 GPM
Stair wand at a 6 flow will yield 375 psi @ 1.75 GPM
The DriMaster Hand tool has a flow control disk installed and I currently do not know the orifice plate size. Note the back pressure on this tool is only in the hose between the orifice plate and the machine as the head of the tool is categorized as a high flow, low pressure cleaning tool.

Optional

Turboforce TH-12CA Concrete Cleaning TH40 Wheels Adapter Kit TH12CA
Convert your indoor tile rinsing wand to outdoor sidewalk wand.
