HydraMaster 750-011-753-10 Titan 575 Truckmount Carpet Cleaner with 100 Gallon Recovery Tank

400+ CFM resulting in faster drying carpet and floors.
The Titan 575 is a titan among truckmounts. It allows you to run two wands, so you can take on those bigger cleaning jobs or you can get done twice as fast. Incorporating the industry's first true water conservation system, it also can be inactive under a full vacuum load for as long as 40 minutes without dumping fresh water. That means you can move furniture or apply pre-conditioners without running to shut off your machine, and your fresh water and recovery tanks need to be filled and emptied less often. Your hot water is used on the job, not dumped into the recovery tank, saving precious fuel each and every day. The Titan 575 was designed for reliability and serviceability; removable magnetic panels make maintenance a cinch!
