All HYDRAMASTER ORDERS ARE FINAL, NON-CANCELLABLE, NO REFUNDS, PRICES SUBJECT TO CHANGE BASED ON DATE SHIPPED!
Hydramaster 000-169-011 180 Degree Thermal Relief Safety Valve 3/8in Mpt X 1/8in
Description
To prevent overheating and pump failure the thermal relief valve should be installed in the by-pass line. The valve will automatically sense the rise in temperature and discharge some of the hot fluid causing the cooler fluid to enter the system and the valve will then close. The total elapsed time from when the valve opens until it closes is 2 to 5 seconds. Close temp 180 degrees F+-. Max psi 125. Max discharge rate: 2.5 gpm. Only Part number 21 in exploded view on right side.
Features

- Extends the life of your pump and all internal parts!
- Internal O-ring seal - Viton
- External O-ring seal - Buna
- Stainless steel spring

Specification

Category:	High Pressure
Line:	Valves
Model #:	000-169-011
Shipping Weight:	5 oz.
Temp:	180 F
Material:	Brass
Inlet:	3/8 MPT
Outlet:	1/8 NPSF

Hydramaster has elevated shipping cost, drop ship fee and min order fees they add so this is why the shipping cost is so high.
Optional

A00076 1/8" Npt by 1/4" barbed brass fitting AKA 32004
