Karcher Legacy Shark Pressure Washing Couplers Fittings and Filter Repair Parts

Model Number: Couplers Fittings and Fi

Karcher Legacy Shark Pressure Washing Couplers Fittings and Filter Repair Parts

Manufacturer: Karcher Pressure Washing

Steam Brite offers over 30 different types of quick couplers designed to attach and disconnect guns and wands. Choose from brass, zinc or stainless steel construction. Available in several pipe thread sizes: ¼" is commonly used on spray wand and nozzles, 3/8” is used for hose connections between the machine and the trigger gun, and ½" size is typically found on higher volume machines of 8 GPM or higher.

Fittings allow you to plumb water to your pressure washer if installing it in a stationary location. We carry everything from pipe fittings to 3 and 4-way connectors. Our various filters help protect your pressure washer from hard water while fuel filters protect from pollutants.
