Model Number: 950-135-B

HydraMaster 950-135-B, PolyBreak, Prespray, 4 x 1 gallon Case

Manufacturer: HydraMaster

All HYDRAMASTER ORDERS ARE FINAL, NON-CANCELLABLE, NO REFUNDS, PRICES SUBJECT TO CHANGE BASED ON DATE SHIPPED!

PolyBreak
Olefin, Polyester, and Triexta Carpet Pre-spray and Preconditioning Agent

PolyBreak is specially formulated to effectively clean heavily soiled olefin, polyester, and triexta carpets with a specialized blend of surfactants, solvents, and emulsifiers that are designed to suspend, dissolve, dislodge, and emulsify, and lift oily soils. This is so important with these types of carpet fibers because they are oil-loving fibers and allow spilled, tracked, and airborne oils and greases to soak into and penetrate the carpet fiber.
PolyBreak meets and exceeds the exacting requirements for cleaning heavily soiled olefin carpeting. You can restore the appearance level of most lightly colored olefin carpets with this solution, including olefin berbers. It will often effectively remove the yellow traffic lane discoloration that tends to appear on these types of carpeting. Its synergistic blend of specialized surfactants penetrates that water repelling characteristic of olefin for more effective removal of ground-in soiling.
PolyBreak is a VOC compliant formula that contains the industry exclusive component Tritanol™ – an integrated blend of specialized encapsulating polymers, organic sequestrants, and specialty surfactants. With the unprecedented cleaning power and performance of Tritanol™, you will experience deep restorative cleaning in high definition. It just works better! PolyBreak is a super-concentrated formula (16-32:1) making it more economical for you. The high pH formula (11.0 – 11.5) makes it effective for filthy and neglected carpets, but should not be used on warranted, stain resistant nylon carpeting.
PolyBreak is also excellent at breaking down and effectively removing filtration soil lines, and in removing soot and other contamination in carpeting on fire damage restoration jobs.

Right to Know Info

Below is a list of components required to be disclosed under the California Cleaning Product Right-to-Know Act of 2017.
Ingredient Name | CAS# | Function | Designated List(s)
Water 7732-18-5 diluent
Butoxydiglycol 112-43-5 solvent
Acrylic copolymer withheld Cleaning aid
Sodium metasilicate, pentahydrate 10213-79-3 builder
Sodium xylene sulfonate 1300-72-7 hydrotrope
Tetrasodium EDTA 64-02-8 chelator
