Release with OxyBreak™
Carpet Pre-spray and Low Moisture Encapsulation Solution

Release with OxyBreak™ Carpet Pre-spray enhances the long standing commitment of the HydraMaster SafeClean designation. Release Carpet Pre-spray contains ingredients that have been identified by industry listing and certification groups as meeting the standard for greener solutions. The cleaning power of Release Carpet Pre-spray is increased with the addition of OxyBreak™ to synergistically enhance soil break down and removal through the power of oxidation. Release breaks through surface tension to begin the cleaning process. It starts to work on contact to dissolve, dislodge, and encapsulate soil, grease, and oil for easier removal during the extraction process.
It does this without the use of any intentionally added solvents, phosphates. or other additives which would disqualify its designation as a green cleaning solution. The free rinsing formula contains the HydraMaster exclusive Tritanol™, which helps the carpet stay cleaner longer and eliminates rapid re-soiling. Release with OxyBreak™ also works extremely effectively as a low moisture encapsulation or bonnet carpet cleaning solution when used as directed.
The encapsulating polymers surround, bond to, and encapsulate soil allowing it to be removed from the carpet in subsequent vacuuming. The OxyBreak™ additive makes it an extremely effective encapsulation cleaner on carpets subjected to a high amount of coffee and beverage spills. Release is effective to use and meets the standards of cleaning and care for all synthetic carpet, including warranted stain resistant carpet. Release with OxyBreak™ can also be used as a spotting solution to effectively remove many beverage spills and stains, including coffee and tea.
Right to Know Info

Below is a list of components required to be disclosed under the California Cleaning Product Right-to-Know Act of 2017.
Ingredient Name | CAS# | Function | Designated List(s)
Water 7732-18-5 diluent
Hydrogen peroxide 7722-84-1 Stain remover
Acrylic copolymer 25035-82-9 Cleaning aid
Acrylate copolymer withheld Cleaning aid
PPG-2 methyl ether 68081-81-2 solvent
Ethoxylated alcohols C9-11 68439-46-3 surfactant
Lauramine oxide 1643-20-5 surfactant
