HydraMaster 800-202-B RinseFree with OxyBreak Ext. Detergent 4 x 1 gallon Case

Manufacturer: HydraMaster

All HYDRAMASTER ORDERS ARE FINAL, NON-CANCELLABLE, NO REFUNDS, PRICES SUBJECT TO CHANGE BASED ON DATE SHIPPED!

RinseFree with OxyBreak™
Peroxide Activated Carpet Extraction Detergent

RinseFree with OxyBreak™ Carpet Extraction Detergent is an "In-Tank" extraction solution that enhances the longstanding commitment of the HydraMaster SafeClean designation. RinseFree Liquid contains only ingredients that have been identified by industry listing and certification groups as meeting the standard for greener solutions. Used in conjunction with Release Carpet Pre-spray, RinseFree Liquid completes the greener hot water extraction carpet cleaning job. RinseFree emulsifies and lifts away loosened soil. The free rinsing formula contains the HydraMaster exclusive ingredient Tritanol™, which helps the carpet stay cleaner longer and eliminates rapid re-soiling. It rinses freely from the carpet and leaves no tacky residue.

The cleaning power of RinseFree Liquid is increased with the addition of OxyBreak™ to synergistically activate other ingredients and enhance soil break down and removal through the power of oxidation. It does all this without the use of any intentionally added solvents, phosphates, or other additives which would disqualify its designation as a greener cleaning solution. RinseFree Liquid with OxyBreak™ is effective to use and meets the standards of cleaning and care for all synthetic carpet, including warranted stain resistant carpet. Its ultra-concentrated formula makes up to 356 gallons of extraction solution from just one gallon of concentrate.

Right to Know Info

Below is a list of components required to be disclosed under the California Cleaning Product Right-to-Know Act of 2017.

Ingredient Name | CAS# | Function | Designated List(s)

Water 7732-18-5 diluent

Anionic polymer withheld dispersant

Acrylic copolymer withheld Cleaning aid

Hydrogen peroxide 7722-84-1 Cleaning aid 8

Potassium hydroxide 1310-58-3 pH control

Aminotris(methylphosphonic acid) 6419-19-8 chelator

5-chloro-2-methyl-4-isothiazoline-3-one 26172-55-4 preservative

Magnesium nitrate 10377-60-3 preservative

Magnesium chloride 7786-30-3 preservative
