Husqvarna 596871701 HTC Densifier AKA HIPERHARD 5 Gal Pail ENO50 GTIN 805544012102

Manufacturer: Husqvarna Equipment

Husqvarna HTC Densifier AKA HIPERHARD 5 Gal Pail 50% OFF Promo
E&O2023 Applied

Hiperhard® is our most popular and commonly used densifier. Hiperhard® contains potassium silicate. It is optimal for porous floors thanks to its ability to better and faster fill out larger voids and pores. This also makes it optimal for the first application on any new project, where surface is still a bit rough and absorption therefore is high.

50% off while supplies last for having original HTC label on it.
