WoolMaster
Rug and Fabric Preconditioner

HydraMaster is pleased to provide you with a preconditioner/pre-spray specifically formulated to safely and effectively clean Oriental Rugs, Wool Rugs, Carpet, and Fabric; natural and cotton fiber rugs and fabric; and other investment textiles. WoolMaster combines specialized encapsulation surfactants, detergents, and conditioning agents to specifically target the soils that rugs and fabrics are commonly exposed to. Most "wool" and "fine fabric" cleaning agents are just pH reduced carpet pre-spray formulations or old shampoo formulas. WoolMaster brings state of the art technology to cleaning investment textiles. WoolMaster was formulated from the beginning for the specific purpose of effectively cleaning the most challenging rugs and fabrics, and meets and exceeds the safe standards for cleaning wool fibers and fabrics. WoolMaster is also formulated to match the versatility of the cleaning professional, working effectively at both "on-location" and "in-plant" cleaning set-ups. It can be applied like a typical pre-spray or used effectively in a rug washing pit. WoolMaster is super-concentrated, most often mixed 1:16-24. It has a slightly alkaline formula with a pH of 8.0 -8.5.
