

Model Number: 950-244-A

HydraMaster 950-244-A SpotMaster CSR 12 x 1.25 pound Jars

Manufacturer: HydraMaster

All HYDRAMASTER ORDERS ARE FINAL, NON-CANCELLABLE, NO REFUNDS, PRICES SUBJECT TO CHANGE BASED ON DATE SHIPPED!

SpotMaster CSR

Coffee and Stain Remover

SpotMaster CSR & Coffee and Stain Remover is an effective, easy to mix powdered coffee and mild dye stain remover. As a modified reducing stain remover, it can be used effectively to remove stains caused by coffee, tea, herbal tea, and other tannin stains. By keeping it in powdered form, you can mix and activate exactly what you need right on the job site, allowing a freshly mixed solution to go to work to effectively remove stains.

If you are cleaning a carpeted area that has coffee spills spread far and wide, there is no faster or more effective way to eliminate coffee stains. By mixing and pouring it directly onto the stains, even large liquid spills can be prevented from returning by wicking.

One 1.25# jar of powder makes almost four gallons of ready to use solution, and the fact that is a concentrated powder makes it easy and inexpensive to ship.

SpotMaster CSR can also be added to a mixed solution of FabricMaster Fine Fabric Detergent to make an effective Haitian Cotton Shampoo for upholstery cleaning.
