Manufacturer: HydraMaster

All HYDRAMASTER ORDERS ARE FINAL, NON-CANCELLABLE, NO REFUNDS, PRICES SUBJECT TO CHANGE BASED ON DATE SHIPPED!

OJ

Extreme Performance Gelled Spot and Stain Remover for Problematic Oil Based Spots and Stains

HydraMaster OJ sets the standard for gelled solvents in the cleaning industry. OJ uses all natural citrus solvents to dissolve and break down specialty adhesives, gum, tar, tape residues and other oil and grease based materials hard surfaces, carpet, and upholstery without the use of harsh or toxic chlorinated solvents.

OJ is a liquid that turns to a gel upon contact with the surface being treated, keeping the solution on the material you are trying to remove, not penetrating into the surface below. When removing specialty adhesives, gum, tar, tape and other hardened solvent soluble spots from carpeting, OJ stays on the surface of the contamination to lessen the likelihood of any delamination. It rinses easily from just about any surface, and does not leave sticky residue behind.

Right to Know Info

Below is a list of components required to be disclosed under the California Cleaning Product Right-to-Know Act of 2017.

Ingredient Name	CAS#	Function	Designated List(s)
d-limonene	5989-27-5	solvent	23
