MultiPhase
Triple Action Bonding, Encapsulating, and Absorbing Odor Counteractant
MultiPhase attacks odors with a multi-faceted attack. It is a binding, bonding, encapsulating, pairing, and absorbing deodorizer that will safely and effectively eliminate odors most commonly encountered by the professional carpet cleaner, including pet urine, tobacco smoke, mustiness and mildew, and vomit. It works effectively on a broad spectrum of organic odors.
MultiPhase contains an industry favorite pleasant fragrance to leave the treated environment with a refreshed, deodorized smell. It can be used to effectively treat odors on any water safe surface including carpet, draperies, upholstery, hard surfaces and floors, pet beds, mattresses, and more. It does a fabulous job of treating general odors in carpeting to help freshen up a total room.
Use MultiPhase with a sub-surface extraction or spotting tool to speed up your effectiveness at treating severe urine contamination. Multi-Phase can also be added to your pre-spray to treat areas of concern prior to cleaning. MultiPhase goes to work deodorizing immediately, making the rest of your cleaning job more pleasant.

Right to Know Info
Below is a list of components required to be disclosed under the California Cleaning Product Right-to-Know Act of 2017.
Ingredient Name | CAS# | Function | Designated List(s)
Water | 7732-18-5 | Diluent
Isopropyl Alcohol | 67-63-0 | Solvent | 20
Ethoxylated Alcohols, C9-11 | 68439-46-3 | surfactant
Hexylene glycol | 107-31-5 | carrier
Amyl salicylate | 2050-08-0 | fragrance
Amyl cinnamal | 122-40-7 | fragrance | 23
nerol | 106-25-2 | fragrance
linalool | 78-70-6 | fragrance | 23
